

Diploma Course: Module BIH 3 The Human Biofield

Learning Outcomes and Assessment Tasks

Aim

The aim of this module is to explore the human biofield, drawing on the work of some of the leading experts in the field, and reflect on the importance of values and beliefs.

Learning Outcomes

- Define 'human biofield'.
- Define 'fields' in this context.
- Identify the key concepts of quantum field theory.
- Explain in summary the contributions of the following individuals to our understanding of the human biofield:
 - Rupert Sheldrake
 - Peter Marcer
 - Amit Goswami
 - Fritz-Albert Popp
 - Ross Adey
 - Robert Becker
 - Beverly Rubik
 - Ervin László
- Explain the key points of Peter H. Fraser's Body-Field Theory.
- Explain the importance of values and beliefs in life.
- Explain the importance of values and beliefs in illness and healing.

Tasks

1. Read the module.
2. Read the accompanying articles:
 - a. *Global Scaling for Quantum Health* by Rainer Viehweger
 - b. *The Living Matrix Connective Tissue* by James Oschman
 - c. *The Amazing Holographic Universe*
3. Read the accompanying personal development note #3 (on Values and Beliefs) and do the exercises.
4. Read the accompanying ground-breaking paper by Dr. Beverly Rubik, written in 1995.

5. Continue making entries in your reflective diary. Record your thoughts, feelings and reflections on the programme, the topics covered, your experiences using the techniques and your own personal growth as the course progresses, plus your response to the discussion points ♣(in the blue boxes).

Assessment Tasks

1. Take the multi-choice test for BIH 3. The pass mark is 18/20.
2. You have been asked to give a 10 minute talk to a local group on Bioenergetic and Informational healthcare. Prepare your talk and bring it to the first in person seminar, where you will be asked to present it. You may use visual aids (PowerPoint, flip charts etc.) if you wish.

Please submit these assignments clearly marked with your name and the date of submission.
